The History of Flag Day

When the American Revolution broke out in 1775, the colonists weren't fighting united under a single flag. Instead, most regiments participating in the war for Independence against the British fought under their own flags. In June 1775, the Second Continental Congress met in Philadelphia to create the Continental Army-a unified colonial fighting force- with the hopes of more organized battle against its colonial oppressors. This led to the creation of what was, essentially, the first "American" flag, the Continental Colors. For some, this flag was composed of 13 red and white alternating stripes and a Union Jack in the corner, was too similar to that of the British. George Washington soon realized that flying a flag even remotely close to the British flag was not a great confidence-builder for the revolutionary effort, he turned his efforts towards creating a new symbol of freedom for the soon to be fledgling nation. On June 14, 1777, the Second Continental Congress took a break from writing the Articles of Confederation and passed a resolution stating that "the flag of the United States be 13 stripes, alternate red and white", "and union be 13 stars, white in a blue field, representing a new constellation."

As warmer weather approaches and outdoor grilling season is upon us, please note that **only** charcoal grills with match light charcoal or electric outdoor grills are allowed. **Gas grills are not allowed. Do not store lighter fluid for conventional charcoal. Storing or having these items on the PCHA property is in violation of your lease.**

HEALTH TIPS

Stretch it: Learn to do stretching exercises when you wake up. It boosts circulation & digestion, eases back pain.

Brush up on hygiene: Many people do not brush properly. Improper brushing can cause as much damage to the teeth & gums as not brushing at all. Brush for 2 minutes at least 2-3 times daily, floss, and see your dentist regularly.

Neurobics for you mind: Get your brain fizzing with energy. Neurobics is a term given to tasks which activate the brain's own biochemical pathways and to bring new pathways online. Brush your teeth with you other hand, take a new route to work, or choose your clothes based on sense of touch rather than sight.

Berries for your belly: Blueberries, strawberries & raspberries contain plant nutrients which are powerful antioxidants.

I say tomato: Tomato is a superstar in the fruit & veggie world. Tomatoes contain lycopene, a powerful cancer fighter. They are also high in Vit C.

We are receiving several phone calls reporting tenants smoking in apartments or on the PCHA property. All tenants are required to sign the No Smoking Policy form when they sign their lease. You are to be 25 foot away from the building. Some tenants have health issues that second hand smoke can trigger.
